

KOOLFOAM SOLID ECO POD

Koolfoam manufacture Solid Eco Pods to a variety of sizes suitable for raft floors in New Zealand. We incorporate recycled polystyrene from our own production waste and recovered polystyrene waste from our customers. This blend of up to 50% recycled and 50% virgin material reduces the impact on landfill and the consumption of oil based raw material.

Koolfoam Solid Eco Pods are cut from molded SL grade block which allows a variety of pod size combinations to be achieved.

ADVANTAGES:

- Reduces impact on environment using up to 50% recycled EPS
- Multiple size options resulting in flexibility
- Solid Pod – no mesh chairs punch through
- No damage when pouring/assembling
- High thermal and structural value

KOOLFOAM SOLID ECO POD OPTIONS

POD SIZE	200mm	220mm	300mm	Greater
1.1*1.1	✓	✓	✓	✓
1.2*1.2	✓	✓	✓	✓
1.8*1.2	✓	✓	✓	✓
Std & H Grade (load bearing options)	✓	✓	✓	✓

“Solution based innovations for an environmentally responsible future”
